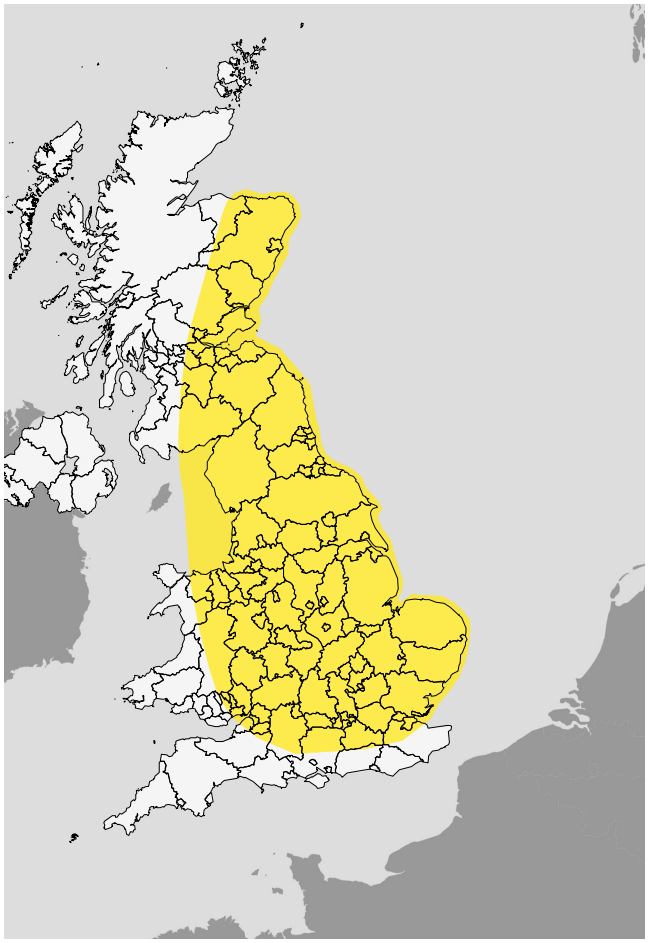
Yellow warning
Thunderstorm

Between
00:00 Mon 2 Sep 2024 and
23:59 Mon 2 Sep 2024



Whilst many places will miss them, thunderstorms may cause flooding and disruption in places on Monday

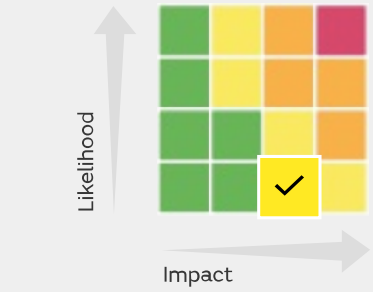
What to expect

- Spray and sudden flooding could lead to difficult driving conditions and some road closures, with a small chance that some communities could be temporarily cut off by flooded roads
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Further details

On Monday, areas of heavy showers and thunderstorms are likely to be ongoing from overnight and expected to continue to affect parts of the UK through the day. The focus for thunderstorms and impacts is expected to gradually move east later in the day. The extent of these thunderstorms remains very uncertain and whilst many places will miss them, some places may see 30 to 40 mm of rain fall in less than an hour and perhaps over 60-80 mm in one or two places. Frequent lightning strikes and hail will be additional hazards.

What should I do?



Very low likelihood of medium impacts

Issued at 10:19 Sun 1 Sep, 2024

Yellow warning
Thunderstorm

Between
00:00 Mon 2 Sep 2024 and
23:59 Mon 2 Sep 2024

Further Details (continued)

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
